Misquoted

Back in 2017, the UK P&I Club was misquoted on seafarer suicide statistics - a mistake that inflated the suicide rate the club had intended to communicate. The mistake was perpetuated widely through trade press and the general media, and it continues to be perpetuated. It's time to set the record straight, but with what? MarEx has endeavored to find out. What was said Around 20 trade and general media articles mentioned seafarer suicide last year as a result of...

Exhaust Gas Scrubber Washwater - Is it safe?

IMO's MARPOL Annex VI Prevention of Air Pollution from Ships, requires the reduction of SOx emissions either by burning low sulfur fuel oil or cleaning the exhaust gas. The cap on SOx emissions is set to January 2020, and a ban on carriage of non-compliant fuel - when a scrubber is not installed - is set to March 2020. Cleaning, or scrubbing, the exhaust gas is generally accepted to be more economical with some business models showing pay back time...

Photos: Stricken Norwegian Frigate Sinks Near Bergen

Despite salvage efforts, the wrecked Norwegian frigate Helge Ingstad has sunk beneath the waves near Bergen, Norway. The Ingstad collided with a merchant tanker on Thursday and was intentionally grounded in an attempt to prevent her from fully sinking. Over the weekend, salvage divers and shoreside teams connected steel cables from the Ingstad's hull to hard points on shore in hopes of restraining her movement. However, multiple wires parted last night, and salvage supervisors determined that it was not safe for...

Japan Files WTO Complaint Against Korean Shipbuilding Subsidies

Japan has initiated a WTO dispute complaint against the government of South Korea over subsidies for the Korean shipbuilding industry. Tokyo has long warned that it could file an objection to Seoul's financial backing for large domestic shipbuilders like Hyundai Heavy Industries, Samsung Heavy Industries and Daewoo Shipbuilding and Marine Engineering, which have been hard-hit by the shipbuilding downturn. Japan claims that certain Korean policy measures, including funds, loans, guarantees, insurance and other financing, violate the WTO's Agreement on Subsidies...

China remained the trading nation best connected to others by sea in 2018, according to UNCTAD's latest Liner Shipping Connectivity Index (LSCI), released alongside the Review of Maritime Transport 2018. The LSCI is an indicator of a country's position within the global liner shipping networks. It is calculated from data on the world's container ship deployment: the number of ships, their container carrying capacity, the number of services and companies and the size of the largest ship. - Separately, the White House released a statement expressing concerns with the Senate farm bill, saying it doesn't strengthen work requirements for food stamp recipients and lacks "meaningful regulatory reform"

(b) EFFECT OF LACK OF PAYMENT YIELD.—

(1) ESTABLISHMENT BY SECRETARY.—In the case of a covered commodity on a farm for which base acres have been established, if no payment yield

AMERICAN OVERSIGHT
DOT RPT Production--000163
EXT-(RPT)-19-1677-A-000163

is otherwise established for the covered commodity on the farm, the Secretary shall establish an appropriate payment yield for the covered commodity on the farm under paragraph (2).

(2) USE OF SIMILARLY SITUATED FARMS.—To establish an appropriate payment yield for a covered commodity on a farm as required by paragraph (1), the Secretary shall take into consideration the farm program payment yields applicable to that covered commodity for similarly situated farms. yield that would otherwise be used in calculating any price loss coverage payment for each covered commodity on the farm for which the election is made.

(2) METHOD OF UPDATING YIELDS FOR COVERED COMMODITIES.—If the owner of a farm elects to update yields under paragraph (1), the payment yield for covered commodities on the farm, for the purpose of calculating price loss coverage payments only, shall be equal to 90 percent of the average of the yield per planted acre for the crop of covered commodities on the farm for the 2013 through 2017 crop years, as determined by the Secretary, excluding any crop year in which the acreage planted to the covered commodity was zero.

(3) USE OF COUNTY AVERAGE YIELD.—For the purposes of determining the average yield under paragraph (2), if the yield per planted acre for a crop of a covered commodity for a farm for any of the crop years specified in paragraph (2) was less than 75 percent of the average of county yields for those same years for that commodity, the Secretary shall assign a yield for that crop year equal to 75 percent of the average of the 2013 though 2017 county yield for the covered commodity.

AMERICAN OVERSIGHT

DOT RPT Production--000165 EXT-(RPT)-19-1677-A-000165

(B) in any region in which there is a history of double-cropping covered commodities with crops referred to in paragraph (1) and such crops were so double-cropped on the base acres, as determined by the Secretary.

(4) EFFECT OF REDUCTION.—For each crop year for which fruits, vegetables (other than mung beans and pulse crops), or wild rice are planted to base acres on a farm for which a reduction in payment acres is made under this subsection, the Secretary shall consider such base acres to be planted, or prevented from planting, to a covered commodity for purposes of any adjustment or reduction of base acres for the farm under section 1112.

(d) UNASSIGNED CROP BASE.—The Secretary shall maintain information on base acres allocated as unassigned crop base pursuant to—

Subtitle B—Agricultural Trade Act of 1978

SEC. 3101. FINDINGS.

Congress finds the following:

(1) United States export development programs significantly increase demand for United States agriculture products within foreign markets, boosting agricultural export volume and overall farm income, and generating a net return of $28 in added export revenue for each invested program dollar.

(2) Our global competitors provide substantially more public support for export promotion than is provided to United States agricultural exporters. The Market Access Program and Foreign Market Development Program receive combined annual funding of approximately $234,500,000. In comparison, the European Union allocates $255,000,000 annually for the international promotion of wine alone.

(3) The preservation and streamlining of United States export market development programs

complements the recent reorganization within the Department of Agriculture by ensuring the newly established Under Secretary for Trade and Foreign Agricultural Affairs has the tools necessary to enhance the competitiveness of the United States agricultural industry on the global stage.

Subtitle I—Precision Agriculture Connectivity

SEC. 6801. FINDINGS.

Congress finds the following:

(1) Precision agriculture technologies and practices allow farmers to significantly increase crop yields, eliminate overlap in operations, and reduce

AMERICAN OVERSIGHT
DOT RPT Production--000577
EXT-(RPT)-19-1677-A-000577

inputs such as seed, fertilizer, pesticides, water, and fuel.

(2) These technologies allow farmers to collect data in real time about their fields, automate field management, and maximize resources.

(3) Studies estimate that precision agriculture technologies can reduce agricultural operation costs by up to 25 dollars per acre and increase farm yields by up to 70 percent by 2050.

(4) The critical cost savings and productivity benefits of precision agriculture cannot be realized without the availability of reliable broadband Internet access service delivered to the agricultural land of the United States.

(5) The deployment of broadband Internet access service to unserved and underserved agricultural land is critical to the United States economy and to the continued leadership of the United States in global food production.

(6) Despite the growing demand for broadband Internet access service on agricultural land, broadband Internet access service is not consistently available where needed for agricultural operations.

(7) The Federal Communications Commission has an important role to play in the deployment of

AMERICAN OVERSIGHT
DOT RPT Production--000578
EXT-(RPT)-19-1677-A-000578

broadband Internet access service on unserved and underserved agricultural land to promote precision agriculture.

SEC. 6802. TASK FORCE FOR REVIEWING THE CONNECTIVITY AND TECHNOLOGY NEEDS OF PRECISION AGRICULTURE.

(3) the term ''Department'' means the Department of Agriculture; and

(4) the term ''Task Force'' means the Task Force for Reviewing the Connectivity and Technology Needs of Precision Agriculture in the United States established under subsection (b).

(b) The alternate calculation method referred to in subsection (a) is a method of calculating the actual yield for the 2018 crop year for county-level agriculture risk coverage payments under section 1117(b)(1) of the Agricultural Act of 2014 (7 U.S.C. 9017(b)(1)), under which—

(1) county data of the National Agricultural Statistics Service (referred to in this section as ''NASS data'') is used for the calculations;

(2) if there is insufficient NASS data for a county (as determined under standards of the Secretary in effect as of the date of enactment of this

AMERICAN OVERSIGHT

Act) or the available NASS data produces a substantially disparate result, the calculation of the county yield is determined using comparable contiguous county NASS data as determined by the Farm Service Agency office in the applicable State; and

(3) if there is insufficient NASS data for a comparable contiguous county (as determined under standards of the Secretary in effect as of the date of enactment of this Act), the calculation of the county yield is determined using reliable yield data from other sources, such as Risk Management Agency data, National Agricultural Statistics Service district data, National Agricultural Statistics Service State yield data, or other data as determined by the Farm Service Agency office in the applicable State.

(c)(1) A supplemental payment made under the pilot program established under this section may be made to an agricultural producer who is subject to the alternate calculation method described in subsection (b) if that agricultural producer would otherwise receive a county-level agriculture risk coverage payment for the 2018 crop year in an amount that is less than the payment that the agricultural producer would receive under the alternate calculation method.

AMERICAN OVERSIGHT

(2) The amount of a supplemental payment to an agricultural producer under this section may not exceed the difference between—

(A) the payment that the agricultural producer would have received without the alternate calculation method described in subsection (b); and

(B) the payment that the agricultural producer would receive using the alternate calculation method.

(d)(1) There is appropriated to the Secretary, out of funds of the Treasury not otherwise appropriated, $5,000,000, to remain available until September 30, 2020, to carry out the pilot program described in this section.

(2) Of the funds appropriated, the Secretary shall use not more than $5,000,000 to carry out the pilot program described in this section.

(e)(1) To the maximum extent practicable, the Secretary shall select States to participate in the pilot program under this section so the cost of the pilot program equals the amount provided under subsection (d).

(2) To the extent that the cost of the pilot program exceeds the amount made available, the Secretary shall reduce all payments under the pilot program on a pro rata basis.

(f) Nothing in this section affects the calculation of actual yield for purposes of county-level agriculture risk

AMERICAN OVERSIGHT

coverage payments under section 1117(b)(1) of the Agricultural Act of 2014 (7 U.S.C. 9017(b)(1)) other than payments made in accordance with the pilot program under this section.

(g) A calculation of actual yield made using the alternate calculation method described in subsection (b) shall not be used as a basis for any agriculture risk coverage payment determinations under section 1117 of the Agricultural Act of 2014 (7 U.S.C. 9017) other than for purposes of the pilot program under this section.

(8) If the transferring project meets the requirements of subsection (d)(2), the owner or mortgagor of the receiving project or projects shall execute and record either a continuation of the existing use agreement or a new use agreement for the project where, in either case, any use restrictions in such agreement are of no lesser duration than the existing use restrictions.

(9) The transfer does not increase the cost (as defined in section 502 of the Congressional Budget Act of 1974, as amended) of any FHA-insured mortgage, except to the extent that appropriations

"(i) withholding of removal under section 241(b)(3); or

"(ii) withholding of removal or deferral of removal pursuant to Article 3 of the Convention Against Torture and Other Cruel, Inhuman, or Degrading Treatment or Punishment, done at New York, December 10, 1984.

(2) The amount of a supplemental payment to an agricultural producer under this section may not exceed the difference between—
